

tank hints & tips!

Thanks for visiting Wooden Tiger during your visit to Bovington Tank Museum. We really hope you enjoyed making your tank.

1. **Undercoat** - make sure you give your tank a good undercoat using a white or grey emulsion
2. **Top Coat** - you can paint your tank now using acrylic or emulsion paint. Remember it doesn't just have to be green. What about painting it in desert camouflage or even pink with sparkles!
3. **Customise** - how about customising your tank. Remember Gez used a knitting needle and some extra dowel on his . You could use bottle lids etc.
4. **Tracks** - get down your local MOT garage and ask them for some old CAM BELTS. They will need a little wash in warm soapy water. Split the belts and starting on the bottom tack the belts on to your tank!
5. **Photo** - go on take a photo of your tank and send it to maddy@woodentiger.co.uk. When we have a few we will set up a gallery!
6. **Remember** - we are only a call away if you have any queries or questions or even some more hints and tips - Maddy - 023 8064 4691!

Check out the **EVENTS** page to see when we are back at Bovington! See you soon!
